Academic Background

- System Engineer, 2012. Global Education Center - Infosys Mysore, Mysore, Karnataka, India.
- Bachelor Degree in Computer Science, 2010. PUC-PR, Curitiba, Parana, Brazil.

Main Qualifications:

- Software Engineer with 10+ years' experience in software analysis, software architecture, software development and business requirements analysis.
- International experience with distributed projects with ability to work in a fast paced environment, operational readiness, service level agreements and system support of a continuous operating environment. Experience in designing critical, real time, scalable and distributed enterprise applications.
- Motivated to lead and work with multiple teams encouraging innovation, creativity and productivity. Strong analytical and problem-solving skills. Ability to communicate clearly and concisely, both orally and in writing.
- Solid experience as a Team Leader with deep knowledge of using agile techniques as XP, Scrum, Kanban, also using techniques of TDD, DDD, SOLID, Clean Code, Refactoring, Design Patterns, Integration Patterns and Optimization Algorithms.
- Solid knowledge of Microsoft tools, such as Web Forms, ASP.NET MVC 1+, .Net Framework 2+, .Net Core, WPF, Sql Server 2000+, Visual Studio 2008+, Team Foundation Server, IIS, AppFabric, Web Service, WCF, Restfull, Web API, Entity Framework, NHibernate.
- Great knowledge of C#, VB.NET, C++ and Java. Good skills on Web System Development using HTML 5, CSS 3, Javascript, JQuery, Ajax, AngularJS, ReactJS, Knockout, TypeScript, NodeJS.

Professional Background

Natixis (Porto – Porto - Portugal) - Feb/2018 – Present

Position: Senior Software Engineer.

Main Responsibilities:

- Development of Backend Application and design Enterprise Architecture.
- Responsible to implement agile culture.
- Main technologies used: C#, WCF, Web Api, WPF, .net Framework, Entity Framework, TIBCO, MS Sql Server, Elastic Search, GIT, Microservices. Jenkins, XL Deploy, XL Release.

Farfetch (Porto – Porto - Portugal) - Feb/2017 – Feb/2018

Position: Senior Software Engineer.

Main Responsibilities:

- Development of Backend Application.
- Design Enterprise Architecture.
- Main technologies used: C#, Web Api, .net Core, .net Framework Consul, Entity Framework, Kafka, RabbitMQ, Cassandra, MS Sql Server, Elastic Search, GIT, Redis, CQRS, Microservices. Team City, Jenkins, Octopus.

Alta Rail Technology (Curitiba – Parana - Brazil) - Apr/2016 – Dez/2016

Position: Senior Software Engineer.

Main Responsibilities:

- Responsible to led Optimization Team.
- Responsible for designing, building and maintaining products architecture.
- Development of solutions using Optimization Algorithms through mathematical modelling using operational research principles.
- Development of integration between company products using Web Api.
- Development of products using Microsoft environment.
- Migration of products written in C++ and Java to C# and .Net.
- Main technologies used: C#, Java, C++, .Net Framework 4.6, WCF, Web Api, Entity Framework, NHibernate, JQuery, AngularJS, Oracle, Postgres, GIT, Jira, EA, Gurobi, IBM CPLEX.

Volvo IT / Grupo Meta (Curitiba – Parana) - Apr/2015 – Apr/2016

Position: Senior Systems Analyst.

Main Responsibilities:

- Systems analysis, development and architecture.
- Responsible for designing, building and maintaining enterprise architecture projects, using Design Patterns and Enterprise Integration Patterns.
- Research of new solutions and technologies to improve products of the company.
- Responsible to build web applications based on ASP.NET MVC and best practices on MVVM.
- Responsible to refactoring legacy code using clean code, design patterns, SOLID and TDD.
- Responsible to apply code review to the team and guarantee code quality.
- Responsible for deploy and build process to improve continuous delivery.
- Main technologies used: C#, .Net Framework 4.6, Web Services, WCF, IBM MQ, XML Serialization, SQL Server, ASP.NET MVC, AngularJS.

Ciashop (Curitiba – Parana) - Aug/2013 – Apr/2015

Position: Senior Systems Analyst.

Main Responsibilities:

- Maintained and develop an e-commerce platform using C#, .Net Framework 4.6, Web Services, WCF, RabbitMQ, XML Serialization, SQL Server, Web API, AngularJS, Elastic Search, Rundeck, Powershell
- Developed a web application ASP.NET MVC, AngularJS, HTML 5, CSS3, JQuery, RabbitMQ, Web Api, Rest, OAuth.
- Worked as Team Coach and responsible for Code Review.
- Responsible to refactoring legacy code using clean code, design patterns, SOLID and TDD.
- Research and development of new solutions and technologies to improve products and processes of the company
- Responsible for deploy and build process to improve continuous delivery.
- Responsible for designing, building and maintaining enterprise architecture projects, using Design Patterns and Enterprise Integration Patterns.
- Responsible for designing, building and maintaining enterprise architecture projects.

Nitrato Tecnologia (Belo Horizonte, Minas Gerais) - Nov/2011 – Aug/2013

Position: Software Architecture / Team Leader.

Main Responsibilities:

- Designed and developed an e-commerce platform C#, .Net Framework 4.5, Entity Framework, ASP.NET MVC, Social Network Integration, WCF, Restful, MSMQ, SQL Server.
- Provides guidance, direction and leadership to team.
- Responsible for designing, building and develop enterprise architecture projects. Research of new solutions and technologies to improve company products.
- Responsible to create and apply agile process inside, code review and guarantee code quality.
- Responsible for deploy and build process to improve continuous delivery.
- Responsible to develop payment gateway, Nf-e gateway and ERP integration
- Responsible to develop search tool using Lucinda .Net
